

SOCIAL WORK

Program Mission and Goals

The Social Work Program at Bethel University prepares students for professional generalist social work practice, equipping them to be advocates of hope and change. Students learn to practice in a diverse world through scholarship, service, justice, and leadership, all in the context of a Christian liberal arts learning community.

- Students will demonstrate a commitment to critical thinking, ethical social work practice, scientific inquiry, and lifelong learning.
- Students will acquire social work knowledge, values, and skills that promote the well-being of individuals, families, communities, and organizations.
- Students will integrate a Christian faith and justice perspective that honors the dignity and worth of all persons.
- Students will develop leadership abilities that promote reconciliation in a local and global context.

Bethel's Social Work Program, accredited by the Council on Social Work Education, prepares students to serve individuals, families, groups, organizations, and communities. Graduates are eligible to be licensed as social workers. While preparation for practice is the program's objective, academically qualified graduates are prepared to pursue graduate-level social work education. (A number of graduate schools offer advanced standing.) The 63-credit major includes classroom and field courses, and select biological, social, and behavioral science foundational support courses.
