MBA—Master of Business Administration

The Bethel MBA leads the way for excellence in graduate business education in the Twin Cities and across the Upper Midwest. Employers and aspiring business performers choose the Bethel MBA because of its uncompromising quality and deliberate design for the busy lives of working adults. With practitioner instructors from the “real world”; an emphasis on ethical, character-based leadership development; and a work-friendly approach to scheduling, the Bethel MBA gives students the tools they need to manage, lead, influence, and go to the next level, both in business and in life.

Transformational Education

Any good MBA program provides business knowledge with critical thinking. We work toward the development of the whole person to create a firm foundation for character-based leadership. Built upon a rigorous business curriculum, the Bethel program coaches students to assess and leverage unique personal assets for greater contribution and strengthen their emotional intelligence. We are prepared to address the whole person and foster a clearer integration of faith and work. In other words, our graduates are not only equipped with business best practices, they are equipped to lead and serve with strong character and greater confidence.

Feedback from the marketplace tells us that employers value programs that develop strong character, pragmatic personal development, a servant leadership style, and a “make a difference” attitude.

Character-Based Leadership

Many MBA programs teach leadership skills. Ours does too, but we also develop the heart of the leader to use those skills in business and beyond for the service of others. Our emphasis is on helping men and women lead with great skill, great humility, and great compassion.

Honoring Your Uniqueness

Bethel MBA students get a deep appreciation of how God has wired them. As they work with their coaches, get feedback from instructors and classmates, and integrate what they learned from the four assessments they take in the program, they come to understand their personal strengths and how to leverage them for greater impact, their weaknesses and how to manage them, where they want to go in their career, and how to create a road map to get there.

Faith and Work Integration

Our program is designed to help our students discover how their faith and their work integrate on a personal and professional level. In every course they are challenged to find the connection between the subject matter and biblical principles, and as personally led, apply faith and trust in God to matters of work and leadership. The result is men and women who see faith and work as deeply intertwined and a source of power to influence the world.

Program Outcomes
