

SOCIAL WORK

Program Mission and Goals

The Social Work Program (<https://www.bethel.edu/undergrad/academics/social-work/>) at Bethel University prepares students for professional generalist social work practice, equipping them to be advocates of hope and change. Students learn to practice in a diverse world through scholarship, service, justice, and leadership within the context of a Christian liberal arts learning community.

- Students will demonstrate a commitment to critical thinking, ethical social work practice, scientific inquiry, and lifelong learning.
- Students will acquire social work knowledge, values, skills, and cognitive and affective processes that promote the well-being of individuals, families, groups, communities, and organizations.
- Students will integrate a faith and justice perspective that upholds the dignity and worth of all persons.
- Students will develop leadership abilities that promote human rights in a local and global context.

Bethel's Social Work Program is accredited by the Council on Social Work Education (CSWE) (<https://www.cswe.org/>). Graduates are eligible to be licensed as social workers. While preparation for generalist-level professional practice is the program's primary objective, academically qualified graduates are prepared to pursue graduate-level social work education. The students from Bethel's social work program are eligible for advanced standing admission to CSWE accredited graduate schools. The 64-credit major includes classroom and field courses, and select biological, social, and behavioral science foundational support courses.

Social Work Program Policy Definitions

- 1 **Standards for Academic and Professional Performance (SAPP)**
Critical thinking and decision-making, interpersonal relationship skills, professional values and ethics, communication skills, responsible conduct, professional readiness, and self-awareness. These standards are consistent with the role and responsibilities of the social work professional. (NOTE: a criminal history may preclude one's ability to become licensed as a social worker upon graduation.)
- 2 **Improvement Plan (IP)**
A formal Improvement Plan (IP) may be required at multiple points in the program including but not limited to SOW 210Z *Introduction to Social Work*, during candidacy, full admission, or in response to a Notice of Concern (NOC) (*3). An IP is developed by the student in collaboration with the course instructor/designated faculty. The IP is signed by the student and course instructor/

designated faculty and placed in the student's candidacy file. An IP must clearly specify goal(s), methods to measure achievement of the goals, specific actions to be taken to successfully meet the goal(s), and a timeline for the completion of those actions. Students with a formal IP must have successfully achieved the identified goals using the measurement listed in the IP before being eligible for candidacy and/or full admission to the program.

3 **Notice of Concern (NOC)**

An (NOC) may be issued to students who have been either accepted as candidates or fully accepted into the social work program and for whom performance issues in the field or classroom have been identified. Students receiving a NOC are required to develop and submit a formal IP (*2) which addresses the identified issue. An NOC is identified as Level 1 (serious concern) or Level 2 (most serious concern).

4 **Conditional Acceptance**

On rare occasions, students not meeting all candidacy, full admission, or standards for continuance requirements, may be accepted and/or advanced conditionally with specific requirements identified and addressed in a formal IP.

5 **Provisional Acceptance**

Students who are in the process of completing 50 hours of voluntary or paid experience and/or students enrolled in SOW 210Z (*Introduction to Social Work*) at the time of application review, and who meet all other requirements, may be accepted provisionally and will be reviewed for full candidacy or full admission after successful completion of the required element(s).

Social Work Program Appeals Process

Students denied candidacy or continuation in the social work program, may submit a written request for consideration of conditional candidacy, conditional admission, or conditional continuation in the program. This written request must be submitted to the director of the social work program within one week of receiving the decision and needs to include an IP stating how unmet requirements will be achieved. Within one week of receiving students' written request, the program director and field director will review the plan and notify students of their decision. If conditional candidacy, full admission, or continuation is granted, conditions for moving forward will be stated. If students are not granted conditional candidacy, full admission, or continuation, students may submit a written appeal to the appropriate academic dean. This written appeal must be submitted within one week of receiving the department's decision.

Those who appeal should be aware of the responsibility of a professional program. It is the social work faculty's responsibility to recommend for candidacy, admission, continuation, and graduation only students who have demonstrated the capacity to perform professional social work practice. This includes adherence to the *Social Work Code of Ethics* and ability to meet criteria as outlined in the **Standards for Academic and Professional Performance (SAPP)**.

NOTE: Students who request to resume their involvement with the social work program after dropping out of the program, being dismissed from the program, or withdrawing from Bethel University for any reason must apply for readmission into the program. Issues that led to the decision to drop out (whether voluntary or involuntary) must be addressed prior to being readmitted to the social work program. Being readmitted to Bethel University does not constitute readmission into the social work program.

Field Education Program

Bethel's social work Field Education Program provides students with generalist social work practice experiences within community-based settings where students learn to connect the theoretical and conceptual contributions from the classroom in a field setting. The field placement is carefully selected because of its ability to provide opportunities for students to demonstrate specific social work competencies with individuals, families, groups, organizations, and communities.

Students are introduced to the concept of anti-racism, diversity, equity, and inclusion (ADEI) professionalism through a 150-hour junior level community learning experience SOW 320 *Experience in Anti-Racism, Diversity, Equity, and Inclusion in Social Work Practice I* and SOW 325 *Experience in Anti Racism, Diversity, Equity, and Inclusion in Social Work Practice II* under the guidance of an experienced community professional.

Students who have been admitted to the Senior Level Field Program are required to complete a minimum of 400 hours of in-person contact with clients and constituencies, performing the role of a professional social worker under the supervision of an on-campus field instructor, and a qualified community-based social work field instructor. These field hours are completed concurrently with the following courses: SOW 420 *Social Work Field Instruction I*, SOW 425 *Social Work Field Instruction II*.

Students are often required to complete a criminal background check at their own expense as part of agency requirements. Students must furnish their own transportation to and from field settings.

International Field Practicum

Junior-level students may fulfill SOW 325 *Experience in Anti-Racism, Diversity, Equity, and Inclusion in Social Work Practice II* in a 100 hour social work-approved international service oriented field-based internship experience guided by Non-Government Organization staff or local service agency staff with International academic program oversight. Students must work with the Office of International and Off Campus Programs (<https://www.bethel.edu/international-studies/>) to arrange a study abroad program that meets social work junior level internship requirements and obtain approval from the Field Director of the social work program. Students must meet both the academic requirements of the study abroad and the social work program to receive field related credit upon completing their International field based service oriented internship experience.
