

B.S. IN BIOCHEMISTRY/MOLECULAR BIOLOGY

The Biochemistry/Molecular Biology major is the in-depth study of the chemical processes that underlie all living systems in the world. As collaborative programs of the Biological Sciences (<https://www.bethel.edu/undergrad/academics/biology/>) and Chemistry (<https://www.bethel.edu/undergrad/academics/chemistry/>) departments, they are an ideal choice for students in the health sciences and in pre-professional programs such as medicine, dentistry, law, and pharmacy.
