

DOCTOR OF MINISTRY

Overview

The Doctor of Ministry is the most advanced degree for professionals working in ministry. The course work is often interdisciplinary in nature and usually involves applied exercises including integral research and writing. A significant portion of the program's requirements are met in the setting of the applicant's ministry rather than in residence. Presently, the Doctor of Ministry Program has two primary delivery systems: the Self-Directed Program and the Cohort-Based Fully Online Program.

For complete admission requirements for the Doctor of Ministry program, please refer to the "Doctor of Ministry (<https://catalog.bethel.edu/bethel-seminary/admission/doctor-of-ministry/>)" page under the Admissions section of this catalog.

Program Goals

The Doctor of Ministry program is designed for Christian leaders and practitioners who long for theological and intellectual stimulation, a rigorous academic environment, experiential learning, and the professional networking that will:

- Think critically and creatively regarding the challenges facing the Church
- Address challenges facing the Church with robust and innovative social research
- Develop innovative, research-based approaches to address identified ministry and leadership challenges
- Create new knowledge and models for the practice of ministry that will glorify God by advancing the Kingdom of Christ throughout the world in culturally sensitive ways
- Produce personal integration of theology, leadership, and personal spiritual formation with the practice of ministry
- Demonstrate advanced professional competency

Critical Issues

Bethel's Doctor of Ministry program emphasizes four issues critical to effective and satisfying ministry studies:

1. **Collegial Support.** Bethel's program emphasizes the relational dimension of learning through colleague groups and mentorship. Clusters of students with like concentrations and ministry interests interact with and support one another through the duration of the program.
2. **Current Technology.** Bethel provides computer software and guidance, enabling each student to participate in a system that ensures rapid transfer of information between student and advisor and among students. Students are required to use a computer to participate in the Doctor of Ministry program because of enhanced capability for research and communication.
3. **Academic Excellence.** Each student will receive instruction from Bethel faculty members and highly skilled ministry practitioners who have received doctoral degrees. Students will be stimulated to consider new ideas and ways of approaching ministry as a result of interacting with our excellent faculty and thesis advisors.
4. **Ministry Applications.** Employing an approach that integrates reflection and practice, Bethel's program places learning and growth in the context of ministry. Participants consistently draw upon their studies as they design and implement their ministry projects. The program structure requires students to remain in active ministry while they pursue their education.

Delivery

Self-Directed (Intensive)

Bethel Seminary's Self-Directed Doctor of Ministry program is dedicated to producing transformed, godly leaders ready for 21st-century ministry and is convenient, relevant, progressive, focused, and empathetic. In the self-directed program, students choose among the following concentrations: Biblical and Theological Engagement, Church Leadership, and Congregation and Family Care. Courses with onsite intensives are offered in the summer and winter on the St. Paul campus.

Cohort-Based (Fully Online)

Bethel Seminary's Doctor of Ministry Transformational Leadership Program is offered in a fully online course of study. Students participate in a cohort and stay together for the duration of their program. There are no electives, as the curriculum offerings are focused on helping students develop expertise in a specific area of study. The cohort-based program also makes use of distributive learning technologies. Students are exposed to a professor of record who is a proven scholar or practitioner in the subject being studied and who serves as the cohort's primary mentor.
