

EMOTIONAL/BEHAVIORAL DISORDERS K-12 (EBD) LICENSE

Special Education Programs: M.A., License

The purpose of the M.A. in Special Education, and Special Education License programs, is to equip, educate, empower, and engage special education teachers for the 21st century across the state of Minnesota and beyond. The Special Education programs emphasize the practical application of the theoretical and research bases of the discipline, special education foundations, data-based decision-making, as well as ethical/spiritual issues related to the profession. Students will learn from current researchers in the field along with current practitioners in Minnesota K-12 public schools. Students will have the option to choose from four different license tracks: Academic Behavioral Strategist, Autism Spectrum Disorders, Developmental Cognitive Disabilities, and/or Emotional Behavioral Disorders.

License Requirements

To be recommended for a license students must:

- Maintain academic success, which is defined as completion of each teacher licensure and each content area course with a passing grade: S, C, or higher.
- Maintain character, ethics, and relational skills consistent with the role and responsibility of the professional educator. Any student failing to meet this expectation may be asked to discuss with the program director other viable options for professional development.
- Complete required license standards, which are subject to change at any time by the Professional Education Licensing and Standards Board (PELSB).
- Meet the PELSB license standards in place at the time of program completion.

If PELSB changes any content standards or education standards after a student is admitted into a Bethel education program, the student is responsible to find, complete, and pay for appropriate classes to meet the standard(s) either at Bethel or another college/university.

Admission Requirements

The M.A. degree and licenses in special education will consider applicants who:
