

# M.A. IN COUNSELING

---

The M.A. degree program in Counseling is informed by an understanding of Christian faith and mental health. We are committed to training graduate-level clinicians to be instruments of change that reflect a compassionate presence to the diverse and changing communities they will serve. Graduate students are trained in the knowledge and skills of effective counseling and ethical practice in order to seek social justice and offer hope as they serve others with integrity and humility.

## Accreditation

Bethel University's M.A. in Counseling program is accredited in Clinical Mental Health Counseling by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) (<https://www.cacrep.org/>). This accreditation serves students by ensuring programs meet key standards within the counseling field, preparing students to enter the counseling field with professional preparation that is recognized across the nation.
