

# **MASTER OF SOCIAL WORK (MSW): ADVANCED STANDING**

---

The justice-informed MSW advanced standing program builds on CSWE's nine core generalist competencies and prepares graduate students for advanced, justice-informed, ethical, and professional social work practice and licensure while emphasizing the commitment to the values of social work practice. With its emphasis on clinical practice, the justice-informed curriculum is based on nine specialized competencies and meets the Minnesota Board of Social Work's requirements for the 360-hours of clinical content required to sit for the ASWB clinical licensure exam including differential diagnosis, clinical treatment planning, clinical intervention methods, evaluation methodologies, social work values/ethics, and culturally specific assessment and intervention. For additional details, please refer to the Minnesota Board of Social Work website (<https://mn.gov/boards/social-work/>).

In the context of a liberal arts environment and with an ecosystems perspective, students learn how to apply advanced critical thinking skills at micro, mezzo, and macro levels while pursuing human rights and social, racial, economic, and environmental justice in local and global contexts. The program fosters an emergent social imaginary that engages clients and constituencies as experts in their own experiences and builds upon the strengths and resiliency of all human beings. The integration and exploration of elements of diversity and the theology of justice allow students to learn how to practice advanced justice-informed social work through scholarship, service, justice, and leadership. Graduates of the justice-informed MSW program are also well-equipped to practice systems-level work across multiple contexts.
